

## **THE ADAR PROJECT**

### **30 Days of UNREASONABLE Joy & CELEBRATION to Blast Away the Darkness and Bring Back Delicious and Togetherness to the World!**

The Adar Project is here to accomplish a spiritual transformation, by joining together in the auspicious, transformational month of Adar, to broadcast joy and light into the world

The month of Adar carries the peak potential for transformation and healing through happiness and celebration.

It's already here, so we don't need to create anything. We simply need to align with its frequency, which makes us antennae that will attract that supernatural power and bring it down into the world.

**YOU can be an Energetic Generator of a joyful world, starting HERE and NOW.**

**That's what The Adar Project is all about.**

#### **IT'S SO SIMPLE...**

- Do things that make you happy. Big, small, spiritual, physical, it's all good>
- Do things that make others happy!
- Become of GENERATOR of SIMCHA (joy and celebration) and encourage everyone in your world to do the same.

We have a full 30 days to help bring down this new energy and frequency.

We can be generators in lots of ways, each and every day.

Know that every single bubble of laughter, every single moment of gratitude, a little song, a little dance (even if you're not in the mood!) every single act of kindness, every single bit of pleasure -even in physical things, will align us and make each of us channels for Divine joy and transformation NOW... to pull down this energy and broadcast it into the world.

This is for people of all backgrounds from around the world! From February 12 – March 13. EVERY DAY for 30 days!

The Adar Project is ON!!! SPREAD THE JOY... BLAST AWAY THE DARKNESS!!! Help bring down a new reality NOW!

Share The Adar Project with your friends.

## **HOW IT WORKS:**

The images on the next page depict the web of interconnected, constantly interacting human consciousness.

The lines are channels of information flowing through this web. The dots (nodes) are individuals (or like-minded groups) within the web.

Each of us is a node that continuously receives information from the channels that flow to us.

We then process that information through our own belief systems, emotional triggers and filters and broadcast it back out into the collective, where other nodes pick it up and do the same. Since this process is mostly unconscious and survival-based, what gets amplified most is fear, confusion and reactivity.

The intention of The Adar Project is to reverse that, co-creating and building an empowering, healing field.

The primary energies of Adar that we will be downloading and rebroadcasting are simcha (joy), achdut (togetherness), mazal, bitachon (trust & confidence) and nahafoch hu (transformation of darkness to light.) Through aligning with these energies broadcasting then into our personal world, we will amplify and re-amplify these transformational energies throughout the entire month, more each day.

The Adar Project will allow us as individuals to unite with each other across all time and space to channel these powerful Divine energies each day into the unified consciousness of humanity, healing and connecting ourselves while co-creating a new morphic field that will be filled with consciousness, wellness and JOY.

If you want these things for yourself, you are invited to join this project as an ACTIVATOR NODE. This means that you will commit yourself to receive these energies each day of Adar and share them in some way with the people in your world.

You can do this on your own, with a group of friends, or if you like, you can tune in each day to the broadcasts that I will be doing live on Facebook and YouTube, and be part of our community, where we will support each other, share our ideas and experiences, and more.

REMEMBER, we don't have to create anything, because it's already here, throughout Adar, just waiting to be received!

## **ABOUT THE FIRST IMAGE BELOW:**

I included this image because it illustrates the role of what Kabbalah calls the neshama klalit, or the Central, or Universal Soul.

When Adam and Eve were first created, it was as one male/female being. The Alter Rebbe, first Rebbe of Chabad, explains that all of our souls are like cells in the collective body of this First Being.

The Collective Soul of Mankind is passed down through each generation, and includes the soul of Moses, the first redeemer, and the soul of Moshiach, the final redeemer. In a holographic manner, we are each included within that Central Soul like every part of the body is included in the brain, and a spark of that Central Soul is included within the core of our own souls.

In this image we can see the Central Soul broadcasting into the field of consciousness in a way that is absolutely pure and connected to the Source. By connecting to the Central Soul we can also cut through all of the noise, fear and confusion and receive a direct transmission which will progressively activate our own inner spark.

## **WHAT IS MAZAL AND WHY DOES IT MATTER?**

The word mazal literally means a dripping down from above.

Mazal can have different connotations depending on its context, but they all refer to something dripping, or trickling down from above. Or in other words, a higher spiritual source influencing what happens within the physical world.

Mazal also refers to the root of the soul. We think of our soul as being in our body, but actually that is usually only the lowest, most limited level of the soul. Most of the soul remains above or beyond the body, influencing us from afar, with only a glimmer within the body itself.

When the mazal is healthy, or good, that means that more of this higher soul power than usual will come down into the body and the physical, earthly plane.

## **THE SPIRITUAL ENERGIES OF ADAR THAT WE WILL BE WORKING WITH THROUGH THE ADAR PROJECT:**

1. *Ayn Mazal l'Yisroel* – In ancient Persia, when the wicked Haman sought to destroy the Jews, he cast lots to see which month was most auspicious. He saw that each month had a mazel that would protect the Jews, except for the month of Adar, which had none. However, the word Ayn, which means “there is none” also can be read Ayin, which refers to the infinite Divine “nothingness”, or undifferentiated potential, that is the source of the entire multiverse. This is the level that is the spiritual source of Adar!
2. *Bari Mazlei* - The Mazal of Adar is healthy, meaning that it flows all the way down from the Source to tangibly affect our physical reality.

That is because Moshe Rabbeinu, the Central Soul who received the Torah, was born on the 7th of Adar. Moshe’s soul, Kabbalah says, is reincarnated in every generation in the central soul of that generation – and ultimately in

the soul of Moshiach. When we connect to the central soul, we activate and supercharge our personal power to heal and transform.

3. *Mishenichnas Adar, marbin b'simcha* – The Torah tells us that when Adar comes in, we are to increase in joy. As we increase in joy, our joy increases the quantum potential and effects of Adar.

That is why it is imperative, and the core foundation of The Adar Project, to do something additional each and every day of the entire month, to make yourself joyful, to make others joyful, and to be joyful together. This joy, as we amplify through our collective field, has the power to change all of reality for the good.

4. *Nahafoch hu* – The holiday of Purim, which takes place in the exact middle of the month of Adar when the moon is full, is the epitome of the power to turn things over to their opposite. Darkness into light, the dominance of evil into the dominance of good. Fear and separation into togetherness and joy.
5. *Lech knos es kol hayehudim* - As part of annulling Haman's evil decree, Esther, the heroine of the Purim story, requested that all of the Jews be gathered in fasting and prayer. This united connection with one another and with the Creator, was what gave Esther the power to turn over Haman's decree and to literally transform the darkness into light. Haman was hanged on the gallows that he had prepared for Mordechai, the Jews defeated their enemies, and Purim became the central day in all of the calendar to draw down intense joy, light and celebration, through honoring each other, making others happy with gifts of food and drink, giving charity to anyone who needs, eating, drinking and celebrating as we commemorate and draw even more deeply from this wondrous transformation that will continue to affect us throughout all time.

## **HOW YOU CAN BE A PART OF IT!**

I plan to be broadcasting live (and by replay) through Adar.

You can be a part of it by sharing the broadcasts, by doing your own sharing, celebrating and broadcasting, whether on or offline, and (most important!) by activating and supporting whomever you can reach to do the same.

Rather than continuing to react to the field of fear, or even just receive and celebrate the light of happiness and Divine joy, we have the opportunity to step up in a whole new way.

**Each one of us can use these powerful, supernatural Divine energies to become activators...**

By connecting to all of the above, by fostering joy, happiness and celebration for yourself and others more and more each day throughout Adar, by sharing your ideas and joyful, transformational experiences with our global community, and by reaching out to the people in your circles (your closest “nodes”) and helping them to spark and shine their own light, joy and influence, you will help to create and build a NEW FIELD of energy and information that will blast joy and supernatural Divine transformational power throughout the entire world.

All that is happening is designed to bring Geula, Redemption, into manifested reality in the world. Now it’s time to make it happen THROUGH JOY! ! !
